The Academic Policy Council discussed the council's role for the upcoming academic year.

The council has received reports from the University Curriculum Committee, the General Education Committee and the Student Petitions Committee.

Dr. Murphy reviewed the council's response to the General Education Committee's Gordon Rule proposal. The council will share their concerns about the proposal to the General Education Committee again.

The council will determine a way to use the Strategic Work Plan to evaluate Dr. Machen's progress towards reaching his goals. The council will also determine when the SWP will be reviewed. Options are to review the SWP once a year at a designated time, review the plan during a special meeting each year or review the plan by a subcommittee. The council does not want to include the types of amendments that need Senate and BOT approval each year.

The council feels that October is a good time to review the plan. The council would like to bring the plan to the Senate every 5 years and adopt changes in the intermediate by the APC, BOT, President and Provost.
