The meeting was called to order at 3:00 PM.

The council discussed the COM/PHHP proposal. Both colleges need the department but feel that the colleges should not compete, but rather create two new departments that will reside in both colleges. They are proposing a name change for remaining department and a sunset of another remaining department.

The administration made provisions so existing faculty can align with the appropriate department. The new faculty will work with one chair who will work with both deans, who report to one senior vice president.

The council discussed the faculty participation in the process and support for the proposal, tenure homes and guidelines. Anyone currently in the process with stay with the old guidelines and any new faculty will fall under the new guidelines which will be created.

The council will follow up with Dean Dolan regarding the department vote for the College of Dentistry proposal.

The meeting adjourned at 3:56 PM
